

# Help Your Child to be a Successful Student

A Community Partnerships Program of Family Services  
of Western Pennsylvania

Help Your Child to be a Successful Student is a **FREE** training program for parents or caregivers of school aged children (PreK - 11). The training

includes one group session and three individual follow-ups.

Participants will learn how to help children:

- Manage homework
- Prepare for tests
- Become excited about school

Whether your child is currently struggling in school or getting great grades this program can help.

To Schedule a training or for more information please contact

## **8 Facts about Parent Involvement\***

- 1. Families provide the primary educational environment.**
- 2. The most accurate predictor of school success is a home setting that encourages learning.**
- 3. Parents who participate in their child's education improve the student's achievement.**
- 4. Comprehensive, long lasting, and well-planned parent participation is the most effective.**
- 5. Positive benefits of parent involvement extend through high school.**
- 6. Children from culturally and racially diverse or low-income families have the most to gain from parent input.**
- 7. The extent of parent involvement is more important to school success than family income or education.**
- 8. Students with parents who take an active role in their education are more likely to attend school regularly, earn higher grades, pass their classes, and graduate.**
